

YASHWANT SINGH RAWAT

828-753-6360 | yashwantsinghrawat696@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Guru Gobind Singh Indraprastha University

Bachelor of Computer Application, GPA 9.0, [credentials](#)

Sept 2023 – Jun 2026

PROJECTS

- **RiskGuard [Stroke Prediction Model]** | Python, Streamlit | [GitHub](#) | [Live](#)
 - An ensemble machine learning model designed to predict the likelihood of stroke occurrence based on various health and lifestyle factors.
 - Utilizing classification algorithms, the model analyzes patient data to identify high-risk individuals, enabling early intervention and preventive care and comprehensive preprocessing with feature scaling, encoding, and imbalance handling techniques.
- **Crystalytics [Diamond Carat Prediction]** | Python, Streamlit | [GitHub](#) | [Live](#)
 - Developed a machine learning regression model to predict diamond carat weight based on physical dimensions and quality metrics.
 - Cleaned dataset up to 50k rows with handle missing values, duplicate entries, and outliers, ensuring data integrity and model reliability. and used different regression algorithms like linear, decision tree, random forest, support vector and naïve bayes but random forest has given best accuracy with near perfect prediction.

EXPERIENCE

Data Science Intern | Nulll Class

Oct 2025 – Nov 2025

- Developed and deployed a predictive machine learning model i.e car color prediction model, nationality detection model to forecast object detection and face recognition with better accuracy.
- Engineered features and performed extensive data cleaning/preprocessing on large-scale datasets and visualized the model performance using different evaluation metrics.

EXTRACURRICULAR

Graphics Designer | AIEC Society (IITM)

Aug 2025 - Present

- Designed graphics, event posters, and social media creatives.
- Ensured brand consistency and visual appeal across various platforms.

SKILLS

- ✓ **Programming Languages:** C/C++, Java, Python
- ✓ **Other Skills:** Power BI, Automation, Linux, Cloud Computing, Prompt Engineering
- ✓ **Creative Skills:** Video Editing, Music Remixing, AI Image Generation, Graphics Designing

ACHIEVEMENTS

- Secured First Position in Data Decode Competition
- Secured Second Position in Deep Learning Project and IOT Project Competition
- Exhibitor in Bharat Bodhan AI Conclave 2026

HOBBIES

- Enthralled about new technology in AI.
- Intrigued in understanding new AI tools.
- Creating video edits of anime.
